

Aerospace Adhesives and Epoxy Resins

HUNTSMAN

High performance bonding

Enriching lives through innovation

Interturbine Aviation Logistics GmbH is an approved supplier of all maintenance materials – consumables, chemicals, composites, raw and semi-finished materials as well as standard hardware – to the aerospace and high-tech industries.

As distribution partner of **Huntsman, Interturbine** provides a wide range of adhesives for composite bonding, metal bonding, multipurpose bonding, performing high temperature and shock resistance, elasticity and flexibility.

For more than 60 years, leading aerospace companies have turned to Huntsman Advanced Materials for innovations in composite resins, tooling materials, adhesives, laminating systems and electronics.

Huntsman knows how important fast, reliable repair materials are to the aerospace industry.

From design to part production and maintenance, Huntsman Advanced Materials provide customers with a wide range of innovative solutions, allowing further developments within the aviation industry while meeting new engineering and economic requirements.

The products are extensively qualified to aircraft manufacturers' specifications.

Please contact your customer service representative for more information.
