

Press Release

Interturbine Group of Companies expands its warehouse space by additional 3,000 square meters (33,000 square feet)

Kaltenkirchen / Germany, July 2011

Interturbine Group of Companies' operations are expanding worldwide. The company is looking ahead optimistically and wants to continue the successful growth strategy.

At its Headquarters in Kaltenkirchen, Germany, Interturbine expanded its warehouse plant by additional 3,000 square meters (= 33,000 square feet) to increase its service capacity and off-shelf performance. The opening ceremony of this new building was held on 10 June 2011.

The new warehouse is a state-of-the-art building with all security facilities such as lightning protection, fire-fighting facilities, ventilation system, emergency power system, an acid-resistant, antistatic floor cover and much more.

In the dangerous goods storage area with a size of 1,600 square meters Interturbine is able to store four different classes of hazardous materials - from flammable, toxic and infectious substances to gases. When planning and realizing this project a

special focus on maximum possible security and environmental protection was laid. Risk management is a principle for secure supply to the vital customer industry.

Interturbine Group of Companies is investing more than 4.5 million € - in the future future.

'We are proud and very please to set standards and to be able to have established a special facility that will serve the entire Interturbine Group of Companies worldwide. Thus, we will remain competitive in the future, secure availability and will be able to react to the needs of our customers in a very fast and flexible way. Furthermore, we secure existing and create new jobs', says Burckhard Schneider, President & CEO of the Interturbine Group of Companies.

The Interturbine Group of Companies is a center of excellence for the aerospace and high-tech industries and offers TOTAL MATERIAL MANAGEMENT for all services required for all kind of materials.
